District: <u>USD 347-Kinsley-Offerle</u>	Bldg #	Grades Served:
School: <u>Kinsley Jr/Sr High School</u>	4117	6-12

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Difficulty in retaining and attracting highly qualified teachers and replacing teachers as they retire
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- An increasing level of social emotional challenges and needs of students
- Lack of, limited, or difficulties in engaging parents in the educational process

(B) Identify the budget actions that should be taken to address and remove those barriers.

Our students face a growing number of barriers to success and this school continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:

- Increased salary to recruit and retain high quality certified and classified staff
- Additional staff members hired to meet the individual learning and SEL needs of all students
- Increased funding and time for staff development
- Additional substitute teachers for teacher release time
- Increase paraeducator support in special education classrooms
- Maintain low teacher/pupil ratio for greater individualized instruction
- Additional ESOL teaching staff for bilingual students

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency

Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency

Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

School: Kinsley Junior Senior High School	4117	12-Jun

Please consider the following questions as you complete the needs assessment for your building.

<p>a. Do you have regular events to engage parents with teachers?</p>	<p>The district uses parent, student, and staff surveys as needed for feedback throughout the year. Our building and district site councils meet regularly throughout the year. Building councils meet at least quarterly, and the districtwide site council, composed of all the building council members, meets twice a year to discuss school improvement and state initiatives. Our administrators operate with an "open door" policy and are willing to listen to students, staff, and parents' feedback. Special email notices to households, social media (Facebook and Twitter), school bulletin, and school/district websites are ways we communicate with our stakeholders. Partnerships with local organizations and businesses such as the Kinsley Library, Tom's Kountry Kitchen, Edwards County Extension, and Edwards County Economic Development enhance the learning opportunities we provide for our students. We are implementing student led conferences in the Spring of 2022 for grade 6-12. Time has been spent on preparing slides for students to present to their parents and begin conversations with life after high school. We continue to survey our stakeholders with the Family Engagement survey along with the Kansas Communities that Care Survey.</p>	
<p>b. What types of caregiver training programs (teaching guardians how to give students help with homework, use technology that students will be required to use, etc.) are provided?</p>	<p>No</p>	
<p>c. Do you have an active Site Council?</p>	<p>Yes</p>
